WILL CUT OFF AN EAR.

Proposed Treatment of "Unfair Workmen" Revealed by a Minister.

MORE STONES HURLED AT SOLDIERS.

President Mitchell Says That an Appeal Will Be Made to President Roosevelt For West Virginia Miners.

Shenandoah, Pa., Aug. 8.—The Rev. Charles Edwards, pastor of the Presbyterian church here and formerly state president of the Young Men's Bible society, said that the young men in his congregation, which is made up principally of mine workers, have informed him that foreigners have determined to cut off an ear of every man who returns to work so that they will forever be marked as "unfair workmen." Mr. Edwards says his young men are in a position to know and he believes the story. The foreigners think this is the easiest method for preventing attempts to break the strike.

Throwing of stones at the troops were repeated. This time the attack was not made on the camp but against the provost guards stationed at the Pennsylvania railroad station near one of the foreign collieries in the southern part of the town. Brigadier General Gobin was requested by the town authorities to send a company of men to that locality because of the disorders that had occurred. Captain Rice of the Eighth was on duty there all night and the colonel of the regiment said the company was greeted by a shower of stones which came from the top of high hill overlooking the railroad station. The captain immediately placed a detail of men in the vicinity of the houses from which the stones were thrown. No one was captured as the offenders had escaped before the soldiers reached the top of the hill.

An intoxicated coal and iron policeman wandered into the camp and became disorderly. He was placed in the guard tent and later was released. A number of strikers heard of the incident and formed a picket line around the camp, looking for the man to leave the place. They followed him down the Mahanoy road, but as there were a number of soldiers in the vicinity the strikers did not molest him and they soon disappeared. The Governor's troop of cavalry took a practice march of about 15 or 20 miles through the Mahanoy valley. Everything is quiet in the region.

Will Appeal For Pardon.

Wilkesbarre, Pa., Aug. 8.—President Mitchell of the United Mine Workers, in an interview, said with reference to the decision of Judge Goff in the habeas corpus proceedings against the miners in West Virginia: "The only thing to do now is to make an appeal to President Roosevelt for the pardon of the men in jail and this will probably be done at once."

Tracy Relics Picked Up.

Spokane, Wash., Aug. 8.—When the sheriff, with the body of Tracy, drove through Davenport, hundreds of persons followed up the street and crowded about the wagon. By the time the wagon reached the morgue the streets were crowded and from every corner could be heard "Three shouts for Lincoln county." The town was wild. The morgue doors had to be closed and the crowd was asked to stand back. Many locks of the outlaw's hair were carried away, and in some places his head had been made bald. His trousers were cut into strips and before they were divided, they were cut into smaller pieces. Many of Tracy's cartridges were divided among the members of the posse and those that could get at the buckskin bag.

About Cuban Loan.

Havana, Aug. 8.—The Platt amendment and the Cuban constitution can be complied with by high officials here say. Congress of the United States not having approved reciprocity cannot prevent Cubans seeking money to face the existing crisis and pay recognized and valid debts. It is the intention to negotiate a proper loan in the United States. The bonds will be payable in American gold and are to be advertised in New York. There is no intention to contract debt with Europe which might cause difficulties for Cuba or the United States. It is believed the loan proposition can be brought within the provisions of the Platt amendment and that it will not be necessary for President Palma to veto the bill.

Colonel Bryan is reported as saying that if the Democratic party should decide that he was the man to lead the ticket he could not honorably refuse to run a third time.

LIST OF VISITORS And Their Missions With President Roosevelt at Sagamore Hill.

Oyster Bay, N. Y., Aug. 8.—President and Mrs. Roosevelt arrived at Sagamore Hill. The Sylph reached the bay during the night but no attempt was made to land her passengers. The trip from Block Island sound was made without incident.

The president had a number of guests at luncheon. Senator Platt of Connecticut, Mr. Phelps, secretary to the governor of Connecticut, and Mr. Clark of the Hartford Current came to talk over the political situation in their state with the president. Representative Jesse Overstreet of Indiana, one of the members of the congressional campaign committee, discussed with the president the political situation generally, so far as it relates to the congressional elections in the fall. He alighted to the president, too, regarding the latter's proposed visit to Indiana in September.

Senator Stewart of Nevada discussed briefly with the president some western matters in which he is interested. Others present were General James Clarkson of Iowa, Representative James S. Sherman and Lucien N. Littauer of New York and former State Senator John Laughlin of Buffalo.

THE STATESMEN

Will Watch the Evolutions of North Atlantic Squadron.

Washington, Aug. 8.—Secretary Moody, with his congressional guests aboard the Dolphin, will join the North Atlantic squadron at Newport next Monday. The squadron will then put to sea and for a week evolutions will take place under the eye of the secretary and those who have charge of the naval appropriations in congress. The squadron will operate in the open sea to the southward of Block Island. The secretary and his guests will probably visit the various ships and by personal inspection of guns, machinery and general equipment as well as personal discussion with the officers they will be able to acquire much valuable information of the practical workings of the warships and of the different types of vessels. Among Secretary Moody's guests will be Representative Cannon of Illinois, chairman of the house committee on appropriations; Representative Foss of Illinois, chairman of the house committee on naval affairs; Representatives Meyer of Louisiana and Dayton of West Virginia, members of the committee and Senator Hale of the senate committee on naval affairs.

Deadly Duel.

Nashville, Tenn., Aug. 8.—Jim Highpeach and rocks Carter were killed. John Carter is supposed to have been seriously wounded and a man named Richmond was shot through the wrist in a fight in Jackson county, resulting from an old feud between the Carter and Lynch families of that section. The fight occurred in the country store of Brooks Carter, where Brooks, his brother John, Jim Highpeach and Boyd and Lisle Lynch and several others had gathered. The talk drifted to the election and a dispute arose between the Carter and Lynch partisans. Brooks Carter was seen to reach for his pistol and a general fight ensued in which guns and pistols were brought into action. Brooks Carter and Highpeach were instantly killed and a bystander named Richmond was shot through the wrist. John Carter, who is supposed to have been seriously wounded, ran off after the shooting, threatening vengeance. The Lynch brothers are under arrest. Further trouble is anticipated.

Order For Foreign Rails.

New York, Aug. 8.—So great is the pressure of steel rail orders in this country that an American railroad, according to reliable reports has been compelled, says the Iron Age, to place a substantial contract abroad in order to secure satisfactory delivery. The report, which is not officially confirmed, however, says an order for close to 50,000 tons of steel rails for delivery to the Pacific coast has gone to a German rail maker. It is understood the Southern Pacific and Union Pacific companies together needed 100,000 tons, but that the American mills are unable to meet the requirements as to deliveries on all the work.

Death of a Female Inventor.

Rochester, N. Y., Aug. 8.—Mrs. Bridget French, an inventor, is dead, aged 72. She was born in Queens county, Ireland, and came to this country in 1850, settling in Rochester. Mrs. French devised and patented at least 30 articles of utility and up to the time of her death was busy on others.

Date of Convention.

Denver, Aug. 8.—The Democratic convention has been called to meet in Denver Wednesday, September 3.

TO INFORM OFFICIALS

Desire to Let Government Known How Catholics Stand on Questions

CONCERNING THE PHILIPPINES.

The Federated Societies Decide Not to Send Representatives to the Catholic Anti-Saloon Meeting.

Chicago, Aug. 8.—Confidence in the administration to do the right thing in the matter of the Spanish friars' lands in the Philippines and as to education in the insular possessions was the tenor of the discussion at the morning session of the convention of the American Federation of Catholic societies. The resolution on the Philippines was discussed by a number of prominent clerical and lay delegates, in particular by Father O'Reilly, the Augustinian friar who called upon President Roosevelt some time ago as a representative of the order to lay the Catholic view of the question before him.

Bishops Messmer and McFaul and Alphonse Koebel of New York also addressed the convention on the question. Father O'Reilly said he thought he voiced the sentiment of the convention when he said it was the place of the federation to enlighten the government as to the true situation in the Philippines. Men, he said, whose duty it was to inform the administration impartially had been blind to true conditions. How was there to be official knowledge of the Catholic view of the matter unless this convention let the government know how the Catholics in general stood on the matter. Once inform the president and then the department of state, he said, and there could be no possible doubt that the federal officials could co-operate with the Vatican without friction to the amicable settlement of the controversy.

The convention decided not to send delegates to the Catholic anti-saloon convention at Washington, D. C., on Dec. 3, but passed resolutions endorsing temperance.

After further discussion the resolution on the Philippines question embodying words of sympathy and support for the friars, confidence in the United States government and respect for its attitude toward Catholic questions and condemnation of the unfavorable reports circulated about the friars was passed.

Youngson's Arrival.

New York, Aug. 8.—A. B. Youngson, assistant grand chief of the Brotherhood of Locomotive Engineers, who was sent here from Cleveland by Grand Chief P. M. Arthur, to endeavor to adjust the difficulty between the Carter and Lynch families of that section. The fight occurred in the country store of Brooks Carter, where Brooks, his brother John, Jim Highpeach and Boyd and Lisle Lynch and several others had gathered. The talk drifted to the election and a dispute arose between the Carter and Lynch partisans. Brooks Carter was seen to reach for his pistol and a general fight ensued in which guns and pistols were brought into action. Brooks Carter and Highpeach were instantly killed and a bystander named Richmond was shot through the wrist. John Carter, who is supposed to have been seriously wounded, ran off after the shooting, threatening vengeance. The Lynch brothers are under arrest. Further trouble is anticipated.

Andrews Cross-Examined.

Detroit, Aug. 8.—The cross-examination of Frank C. Andrews, who is on trial charged with misappropriating funds of the wrecked City Savings bank was continued by Assistant Prosecutor Merriam. Questioning Andrews as to the examination of the bank by the directors July 16, 1901, the prosecutor drew from him the statement that the collateral to the notes held by the bank was not examined.

Andrews admitted that an examination of collaterals was proper, but insisted that it was not necessary. "I have never seen the directors go into that phase of an examination," Andrews declared. "We appreciate that fact; if they had we would not be here," shot back Mr. Merriam.

Specimens of Fish.

San Francisco, Aug. 8.—President David Starr Jordan of Stanford university, who has been exploring the south seas for the last few months for specimens of fish from the coral reefs, in conjunction with a surveying party sent out by the United States' fish commission makes a gratifying report. In the bay of Apia, Samoa, 453 distinct varieties of fish have been found, many of them previously unknown to scientists. This is the first time that the fish life of a coral reef has been explored.

Mrs. Tolton, whose disappearance at Laporte, Ind., nearly caused her husband to be lynched was located in the Salvation Army barracks at Chicago.

THE ADVERTISING LAW.

Full Text of the Bill Enacted at the Last Session of the General Assembly.

Following is the law enacted by the last Legislature of Kentucky on the subject of public advertising:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That in addition to the notices now required by law to be posted, all public sales of any kind of property, when sold under execution, judgment or decree, shall unless otherwise agreed upon by the parties to such execution, judgment or decree, be advertised in some newspaper published in the county of such sale, if any newspaper be therein published, at least once a week for three consecutive weeks next preceding the day of sale: *Provided* That, in counties where there is a daily newspaper published or in general circulation, publication of such notice of sale for three consecutive days next preceding the day of sale shall be sufficient. The advertisement shall state the time, place and terms of sale and shall give a description of the property to be sold: *Provided*, That the newspaper advertisement herein provided for shall not be necessary where the appraised value of the property to be sold is less than one hundred dollars to be ascertained by appraiser in each case as now provided by law.

§ 2. That whenever any suit or action in court involving the settlement of any estate whatever is referred to any commissioner or other officer to receive and report claims or for any other purpose, it shall be the duty of such commissioner or other officer to advertise the time, place and purpose of his sittings in the same manner as provided for advertising sale of property by section first hereof.

§ 3. That for all newspaper advertising required by this act or by other law, the publisher shall be entitled to receive, as full compensation for such advertising, at the rate of fifty cents per linear inch, single column, solid, eight point measure for each insertion, and in all advertisements in judicial proceedings, the cost of advertisement shall be taxed as costs by the clerk of the court: *Provided*, That the rates of advertising in daily newspaper, shall not exceed one dollar per linear inch per insertion.

§ 4. The advertisement required by this act shall, at the option of the parties, be done either in an American or German newspaper.

EXTRA ATTRACTIONS OFFERED

To Draw a Big Crowd to the Republican Convention Here August 14th.

[Enquirer.]

The Republican politicians from Kenton and Campbell counties who attend the Appellate and Congressional conventions at Maysville, Ky., on Aug. 14th, will be accorded a reception that will doubtless prove a surprise to them.

The Republicans of Mason County propose to make the convention one long to be remembered, and every politician and delegate who attends will be shown a good time.

Mr. Charles L. Gray, of Augusta, the Republican candidate for Railroad Commissioner in that district, was here Wednesday, and he stated that the First Regiment Band of Cincinnati had been engaged for the occasion, and that the delegates would be well cared for.

At this joint convention it is expected that Judge James C. Wright, of Newport, and Senator Cox, of Maysville, will be nominated for the Appellate Bench and Congress respectively, without opposition.

The Jerome (Arizona) Reporter, speaking of the Fralick treatment for consumption, says it has worked wonders in the case of Judge Hanson Kennedy and Justice Goebel. When Judge Kennedy reached Phoenix he had to be carried from the station to the hotel. The Reporter says he is able to walk briskly over the city's streets and from all appearances has taken a new hold on life. Flesh is returning to him at the rate of a half-pound a day, and he now looks forward to a permanent cure. His case was the first tried in Arizona and for severity it has not been surpassed since. Justice Goebel now considers himself a well man.

Miss N. Cropsey, a teacher in one of the schools at Indianapolis, left this morning for Pittsburg after spending a day or two in Maysville. She was a former resident of this city and the object of her visit, after an absence of many years, was to try to locate the grave of her sister who died in 1855 while the family lived here. The remains of her sister were buried in the Maysville Cemetery, but her efforts to locate the grave were unsuccessful, as no headstone or marker had ever been erected. Her mother was a member of the First Presbyterian Church during the pastorate of Rev. Dr. Grundy.

A boy named Humphreys, aged about ten years, whose father works in the cotton mill, was loafing about the wharf Saturday afternoon at 3 o'clock when he accidentally fell off, and had a very narrow escape from drowning. Mr. John McMahon, who is employed on the wharf, reached the lad just in time to save him.

REPLY OF MR. BALFOUR

In Regard to the Attitude of Government on Shipping Combine.

DECLINED TO DISCUSS THE TERMS.

The Premier Promises to Take Parliament Into His Confidence as Soon as the Matter is Satisfactorily Arranged.

London, Aug. 8.—Replying in the house of commons to a request of Lord Charles Beresford for assurance that no binding agreement would be concluded between the government and the shipping combination without the agreement being approved by parliament, the premier, A. J. Balfour, said:

"I do not think it possible to negotiate on this or any other subject if the proposed terms are to be publicly discussed before the government has agreed to them. The government, however, is most anxious to take the house into its confidence at the earliest possible moment."

Mr. Balfour's reply has particular interest, as Belfast dispatches announce that the government accepted J. P. Morgan's offer to give the admiralty claim on all the combine ships. As evidence of the acceptance, it is stated that the government has chartered the Corinthic, the first ship built for the combine, which has just been completed at the Harland Wolfe shipyards.

Belief is general that J. Pierpont Morgan's offer practically has been accepted by the government. The Belfast dispatch may slightly anticipate the technicalities required to close the agreement, or may not allow for changes inserted since the offer was originally made, but there appears to be little doubt that the spirit of the scheme is acceptable to the cabinet. J. P. Morgan and Company, when asked concerning the reported agreement, adopted the same noncommittal attitude as Premier Balfour.

No Change.

New Haven, Conn., Aug. 8.—The strike of the 400 conductors and motormen of the Fairhaven and Westville Railroad company continues unchanged and a 90-mile system is paralyzed. No passenger cars were running, traffic being confined to the operation of a single mail car. The night brought practically no new developments except those arising from the attempts of citizens and officials and organizations to bring about arbitration. There was no disorder. The arrival of the president of the trolley company, H. M. Parmalee, now absent on a yachting cruise, is expected soon and it is believed no settlement can be effected until he gets here.

Dangerous Fire In Mine.

Phoenix, A. T., Aug. 8.—Miners arriving here from Jerome, report that the fire in the United Verde mine has crept down to and is entering the fifth level. The old shaft is abandoned on account of gas. The lower level is open through the new shaft, the upper levels in that shaft being bulk-headed. The smelter has shut down owing to a break in the machinery and practically all the men have been discharged, except the machinists and the few who can aid in fighting the fire when a plan of action is developed. Probably 800 men are idle as a result.

Night Gun Practice.

Reval, Russia, Aug. 8.—It was nearly midnight when Emperor William returned to the Hohenzollern after having witnessed the night practice of the Russian fleet by flashlight. Earlier in the evening he entertained the czar at a state dinner on the Hohenzollern and their majesties subsequently proceeded to the Standart, where they viewed the brilliant electric illuminations of both fleets. The czar and Emperor William went on board the Russian flagship Minin and proceeded to sea, where they witnessed the fleet's evolutions.

Dead Man Identified.

New York, Aug. 8.—A body found in Central park with a bullet hole in the head has been identified as that of Hermann Kellar, said to be the son of Breslaus, multi-millionaire. Kellar resided in this city. His widow says he left home on July 17 and that bank deposits of several thousand dollars to his credit have been withdrawn. The pockets of Kellar's clothing were torn when his body was found and no pistol had been discovered near the spot.

Bedford, Ind., Aug. 8.—The Monon railway passenger and freight station burned. The fire spread to the Arthur Jordan poultry house. The loss is estimated to reach \$100,000.

It is rather strange that the Republicans should take off their hats and shout most loudly in behalf of Roosevelt's public recommendations against the trusts when it is remembered that on the 15th of last February every Republican Senator voted against an amendment embodying those very ideas.

Some of the good citizens of Maysville, and among them big taxpayers, and who live west of Limestone creek, think it would be a wise move on the part of Council to plan for extending Third street across the bottom to Forest avenue. They say the route should be laid out by a competent engineer and then the work of making the fill could be done gradually, as the Second street extension was made.

LITTLEFIELD'S LOOP.

The Hon. Charlie Littlefield, the Republican party's Maine trust-buster, during the dying days of the past session of Congress, stated by indirection that Admiral Schley was a coward, who "made a loop and escaped danger." It is the same Mr. Littlefield who now comes out in print over his signature and makes a direct loop all around his own record on the trust question. The "constitutional amendment" farce for the regulation of trusts the Republicans tried to deceive the people with in the Fifty-sixth Congress, like the "impotent" publicity fake that is at the present time serving the same purpose, had as its chief advocate and defender this mighty man from Maine. In a recent issue of Leslie's Weekly Magazine, Mr. Littlefield makes a most remarkable loop in the following language: "I can not say that I am at this time in favor of a Constitutional amendment broadening the powers of Congress." And then this distinguished "trust-buster" proceeds to give his reasons, and strange to say those reasons are the very same the Democrats brought forth for not supporting Mr. Littlefield's Constitutional amendment. Is the Maine "trust-buster" making an anti-trust loop to avoid political danger?

River News.

Queen City, Tacoma and Gould down this evening and Bonanza to-night. Up, Indiana.

A year ago navigation was suspended at this time, and the big boats were all laid up for weeks.

Cincinnati Commercial Tribune: "The Ohio river from Pittsburgh to Cairo affords a waterway about 1,000 miles in length. It is navigable for boats drawing six feet of water, about one-half of the year; sometimes more, sometimes less. Its tonnage averages a little over 15,000,000 tons annually, which is the largest tonnage carried by an inland waterway in the United States. If the Ohio were navigable at all seasons, its tonnage would be indefinitely increased."

IT PAYS TO EXPLORE THIS STORE!

Don't be satisfied with the bits of news we print in the papers. For many reasons some of our best bargains never get into print. Some time the lots are small and are snapped up before they're fairly on our counters. Again, there are so many things to advertise, before we find space for a certain bargain its ranks are so depleted we haven't the ad quantity necessary. When you are down town step in and ask to see the day's bargain. That is the best way as now is the halcyon time for money savers. Special inducements must be offered to coax trade. Watch our advertising space of course and our window above all visit the store to see and examine the saving opportunities we create for you daily. For instance: If we were to give you merely your money's worth we would charge 7½c. for this sixteen-inch bleached crash but we give nearly double your money's worth when we say 4c. a yard. The crash is neatly bordered in blue and is a close, firm, even weave.

Women's Run-About Skirts!

Hardly a month passes without our adding to the stock of utility Skirts, though judging by what shoppers tell us we might double the time without any additions and still have the most satisfactory stock in town. You notice we do not say the biggest stock. We don't aim for that. We never buy a great quantity at a time, only enough to be sure of fitting you for the well groomed woman to-day demands the same perfection of fit in a skirt that she does in a waist. And that is what she will find in these beautiful tailored skirts of black or dark gray cheviot. Seams are heavily stitched; also edge of flared sunburst flounce. We'd like to whisper the price for until you see the skirts you won't believe it possible to buy such perfection of quality, fit and finish for \$2.

Nature "makes all things beautiful in their time." Every one of life's seasons, when life moves on nature's lines, has its own charm and beauty. Many women dread that period when they must experience change of life. They fear that face and form may suffer by the change, and that they may fail to please those whom they love. The value of Doctor Pierce's Favorite Prescription in this crisis of woman's life lies in the fact that it assists nature. Its use preserves the balance and buoyancy of the mind and sustains the physical powers. Many women have expressed their gratitude for the help and comfort given by "Favorite Prescription" in this trying period. Its benefits are not passing but permanent and conduce to mental happiness as well as physical strength.

POSTOFFICE ROBBED.

Grigsby's Store at Tollesboro Raided by a Thief Last Night—Over \$300 in Money and Stamps Taken.

Grigsby's store at Tollesboro was entered some time last night by a thief, who blew the safe open and secured about \$150 in cash and checks. The Tollesboro postoffice is conducted in the store, and stamps valued at from \$150 to \$200 were also stolen.

A man was seen to step off the porch and start off in the direction of Maysville about 2 o'clock by young Mr. Taylor, whose home is opposite the store, but Mr. Taylor's suspicions were not aroused. The thief first entered an adjoining room and from this made his way into the store.

A horse and buggy belonging to Mr. Rum Goodwin this side of Tollesboro were missing this morning and the supposition is that the thief stole the rig and drove to this city or Springdale and boarded a train for Cincinnati. It is thought the robber is a professional.

Mr. N. Gollenstein, in response to a telephone message at 5:30 o'clock, left shortly afterwards for the scene of the robbery with Mason County's bloodhounds, but they will not be of any service if the robber escaped in the buggy.

Captain C. M. Phister and Messrs. Harry Barkley, R. B. Owens and Chan Jefferson leave to-day on the handsome little gasoline boat Newt. Cooper for a ten days trip up the Kentucky river. They will be joined at Frankfort next Monday by Judge Newell and Mayor Stalcup.

The Thornton Marshall will case which was set for trial at a special term of the Harrison Circuit Court, beginning last Monday, has again been postponed, one of the beneficiaries, Editor J. E. Thompson, of Augusta, having died recently. It is not known now when the case will be called.

The Incandescent Light and Storage Company has filed suit at Covington against various insurance fire companies and the Secretary of the Newport and Covington Underwriters' Association for \$15,000 for distributing circulars alleging that the plaintiff's light machines are "extra hazardous."

ANOTHER CHALLENGE.

To the Manager of the Maysville B. & C. Club—Dear Sir:

We challenge you to play a match game of ball any day next week. Let us hear from you. Respectfully yours,

THE HAS BEENS.

Duke A. Rudy, Manager.

Maysville, Aug. 8th.

Sudden Death of Mr. Samuel T. McDonald.

Mr. Samuel T. McDonald died very suddenly Thursday afternoon at his home near the Sixth ward school house, of heart disease. He had been suffering for some time from this and dropsical troubles. Mr. McDonald was about fifty-eight years of age and is survived by his wife and nine children. The funeral will take place this afternoon about 5 o'clock at the home. Burial in the Maysville Cemetery.

Automobile Lost Off the Steamer Stanley.

An automobile was lost off the steamer Stanley shortly before 1 o'clock this morning near the head of Charleston Bar. The Stanley was bound for Pomeroy. It was not learned just how the machine happened to get away from the crew, but the auto plunged into the Ohio somewhere near the head of the bar named. It will probably be recovered some time to-day.

The arc light at Second and Sutton streets fell shortly afternoon Thursday, the globe and other breakable material being shattered. The trimmer was engaged in lowering or raising it at the time, and the accident was caused by the pole wire breaking. The lamp came within a few feet of striking some children who were passing.

Mr. and Mrs. D. C. Fraze, of Lexington, have been ill for several days, but are convalescent.

Right Paris Green.

It's a waste of time and money to use poor Paris Green on your tobacco plants. We are particular about this article. We handle a brand that we know to be absolutely pure and reliable. It goes farther and does more than the ordinary kinds and it costs you no more than the inferior grades. Large buying and close selling makes it possible for us to sell a better Paris Green for the same price as the poor kind.

BLOWERS.

Fine Rains Assure Good Crops

And a bountiful harvest provides full bins. Successful farming depends a great deal on substantial fences—and the weather. The greatest yields are produced on land that is made stock-proof. Prosperous farmers, being quick to recognize an article of real merit, are satisfied only with the best—

The American Woven Wire Field Fence.

As an all-purpose fence it has no equal in the world. Made of large, strong, high grade steel wires, heavily galvanized, it is practically everlasting, never goes wrong and will stand any strain that is likely to be put upon it. When marketing your grain, bring the wagon around and load up with the "American."

Judge Holmes.

Carlisle Mercury: "Judge Samuel Holmes, of this city, goes to the Republican convention to be held at Maysville on the 14th inst., with a splendid chance to win the nomination for Congress, and the Republicans could not choose more respectable gentleman. We are frank to say that the outlook for the election of a Republican to Congress from this district is not flattering, yet if such a thing should be we would be pleased to have our countyman win."
